	DNA PARENTAGE TESTING FOR LITTER	\$36.50 per individual submitted together; minimum of 4 individuals		
If you do not need swabs...	If you already have swabs for DNA collection, you must still send this document to the Registrar with payment in order to receive the needed document from VGL in order to send them the DNA sample.			
Instructions for collecting and sending sample(s)	<ol style="list-style-type: none"> 1. Before collecting sample, make sure that the dog has not had anything to eat or drink (including nursing, if puppies) for 60 minutes prior to collecting the sample. 2. Sample one dog at a time. If samples are to be collected from several dogs in the same session, complete all steps for one dog before sampling the next. 3. Use 3 buccal cheek brushes. Place the brush head against the inside of the cheek and gums, swirl vigorously 8-10 times. 4. Wave brush in the air for 20 seconds to air dry. 5. Brushes should be put back in sleeves and each sleeve label filled in with the dog’s name. 6. Place the 3 sleeved swabs into a regular, letter size (4” x 9”) envelope, labeled with the animal’s name and/or registration number. Place the individual envelope(s) containing the swabs into a separate envelope for mailing. 7. Follow further instructions on the document that will be sent to you for submission of swabs to VGL/UD Davis.
